

EXPECTATION OF SUPPLIERS

Expectations of Suppliers

Innovation and excellence are at the core of everything we do. We work closely with our suppliers to continually improve performance and strive for mutual growth.

Coca-Cola Europacific Partners Australia manages its suppliers within a simple framework called Partner for Growth. The framework segments our entire supply base and allows us to invest time and effort appropriately.

Partner suppliers have the potential to help grow our business and unlock future value, irrespective of whether they are a big supplier, a small supplier, or not yet a supplier. Quality, service and value are a given, along with outstanding performance; but we also look for initiative and ownership for identifying opportunities and driving tangible commercial outcomes.

Strategic suppliers are the pillars of our organisation and play a key role in Coca-Cola Europacific Partners Australia's transformation into a leaner and more agile business. They have a proven track record of high performance and an excellent reputation for quality goods and services. The focus is on long term high performance and in driving productivity initiatives to deliver effective, efficient relationships.

Tactical suppliers make up the balance of our supplier base. The focus is on short term performance, with great quality, service and value as minimum requirements.

We recognise outstanding supplier performance through our [Partner for Growth Awards](#). This forum provides the opportunity for Partner suppliers to showcase what they have delivered to Coca-Cola Europacific Partners Australia through closer collaboration.

Information Security and Protection

At Coca-Cola Europacific Partners all employees and third parties share in the responsibility of safeguarding the information used to support our business operations. We exchange information with our colleagues, customers, suppliers, bottling partners and others. Everything produced (by an individual or Information Technology system) or received in the workplace that has the capacity to be sent, received or stored in physical or electronic copy is the property of Coca Cola Europacific Partners.

It is each employee's and third party's obligation to ensure that systems are used properly and information is protected and classified in accordance with Coca Cola Europacific Partners Australia's

Information Security Policy, Information Protection Policy and Payment Card Industry Policy. You will be provided the details applicable to you when you start.
