

# ACTION ON SOCIETY (COMMUNITY)

## Supporting disadvantaged young people (France)

In France, we continue to support Passport to Employment, an initiative that provides interview training and professional mentoring for young people from underprivileged backgrounds.

30,000 young people have benefitted from the initiative since it was launched in 2003.

We also support PAQTE (Plan d'Action Quartiers pour les Entreprises), a government-led initiative through which we recruit unemployed people from disadvantaged areas. Finally, the L dans la Ville programme gives girls and young women from disadvantaged areas of Lyon and Paris access to sports and jobs.
