

ACTION ON CLIMATE

‘Half Pallet Capability’ project (Belgium)

In 2018, we invested €2.8 million with the installation of new ‘end of line’ machinery in our Antwerp manufacturing site. This replaced 12 pack equipment enabling us to produce half pallets of 6 packs on our large PET line. As a result, we are able to meet the needs of our customers such as Colruyt, Lidl and Aldi, as well as reduce our CO2 and lower transport costs, thereby improving energy efficiency.
