

ACTION ON SOCIETY (COMMUNITY)

Olympic Moves (The Netherlands)

Olympic Moves and its partners aim to facilitate positive sports development among young people, based on the conviction that this contributes to a resilient young generation. This pertains to both physical and mental development, such as learning how to handle wins and losses, how to deal with differences, and how to work as a team. Olympic Moves offers students the opportunity to discover multiple competitive sports in a school setting. These sports and activities make them feel accepted and help them hone their talents and boost their confidence, all while having fun, making memories and building friendships. Olympic Moves aims to make secondary school students aged 12-14 enthusiastic about sport, and the positive and lifelong learning experience it can bring. In the Netherlands our support involved 384 schools and more than 124,425 young people who participated in 16 sports in 2018.
